EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Narinder S. Banait on June 5, 2008.

The application has been amended as follows:

Claim 4, line 6, "in the protein-protein complex" is deleted.

Claim 4, line 11, "releasably" is deleted.

Claim 4, line 11, ---via a cleavable linkage --- is inserted after "thereto".

Claim 4, line 22, ---by the cleaving-inducing moiety when in effective proximity to said one or more molecular tags--- is inserted after "released".

The following is an examiner's statement of reasons for allowance: the prior arts fail to teach a method of detecting one or more protein-protein complexes of rare cell type in a sample containing a mixed population of cells, each protein complex has a first and second protein, the method comprises: immunomagnetically isolating the sample of subpopulation of cells containing the rare cell type with one or more antibody specific for a cell surface antigen of the rare cell type and wherein each antibody is attached to a magnetic particle; combining with the subpopulation of cells: a) a first binding compound

Art Unit: 1641

specific for the first protein, wherein the first binding compound is attached to a tag via a cleavable linkage, and b) a second binding compound specific for the second protein of the protein-protein complex, wherein each of the second compound is conjugated to a cleaving-inducing moiety having an effective proximity; when the first and second binding compounds are bound to the first and second protein of the protein-protein complex respectively, the tag on the first binding compound is cleaved by the cleaving-inducing moiety on the second binding compound; separating and identifying the released tags to detect one or more protein-protein complexes in the sample.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pensee T. Do whose telephone number is 571-272-0819. The examiner can normally be reached on Monday-Friday, 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long Le can be reached on 571-272-0823. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
